New York Money and Stocks.
NEW YORK, December 4.—Money—Fairly easy. Prime discount 100 days, 13 1/2 to 14 per cent. per annum, closing at 2 1/4. Prime time certificate paper 5/16 to 1/8 per cent. Sterling exchange—Bankers' bills dull at \$1 79; demand \$1 80 1/2.
GOVERNMENT BONDS—Were strong today and 1/4 per cent higher for 4's and 5's. Bundles of Treasury notes, the greater 1/2 to 3/4 of the week at lower prices, the decline ranging from 1/4 to 1/4 per cent, the latter in new 4's. The *Express* says issued an order authorizing the purchase of \$3,000,000 worth of the 6's of 1898 at 103 1/2, but up to the close of business today the government had succeeded in obtaining only \$1,000,000 worth. Full 103, the price to be paid by the Treasury for their redemption of the 6's, was obtained at 102 1/2 per cent, and was paid for them in open market, the seller agreeing to loan the money to the purchaser until the 15th of December at 102 1/2 per cent, the latter therewith willingly forfeiting 1/4 per cent for the use of the money.

RAILROAD BONDS—In railroad bonds business has been lighter than for many previous weeks, the attention of investors and speculators being absorbed chiefly by the share list, and, in many instances, quite a marked decline in prices was recorded. By far the largest part of the business was for the following consols, Boston, H. & M. firsts, and Denver and Rio Grande, Kansas and Texas Pacific, Lehigh and Wilkesbarre, Chesapeake and Ohio, C. C. and I. C. and Mobile and Ohio, which fell off 1 to 4 percent. Texas Pacific (Rio Grande division) firsts and Wa-

bash bonds were exceptionally firm in the face of the declining market. In the late dealings many of the above named issues, notably Boston, H. and E. and Chesapeake and Ohio bonds became strong and advanced sharply.

The railway and miscellaneous speculation was active throughout the week, but dealers were attended by an unsettled feeling which

dominated in a marked depression and a heavy decline in prices from the highest point. Large lines of long stock came on the market which accelerated the downward movement. The great stringency in money and the failure of the Northwestern directors to declare the expected scrip dividend were the moving causes of the decline in stocks and the heavy liquidations which took place. The decline late in the week from the highest point ranged from 1 to 2½ per cent. Northwestern and Western Union leading the downward movement.

STATE SECURITIES—Active and dealings generally at higher prices.

Stocks.—The market opened strong and $\frac{1}{2}$ per cent higher, and subsequently advanced $\frac{1}{4}$ to $\frac{3}{4}$ per cent. At the first board speculation became depressed and a decline of $\frac{1}{4}$ to $\frac{1}{2}$ per cent took place, Reading, Iron Mountain, and Delaware, Lackawanna and Western leading the downward movement. Toward noon a strong tone prevailed and prices advanced $\frac{1}{4}$ to $\frac{1}{2}$ per cent, the latter Chicago, Burlington and Quincy, Coal stocks, Granger shares, Union Pacific and Western Union being also prominent in the advance. During the afternoon a reaction of $\frac{1}{4}$ to $\frac{1}{2}$ per cent took place, Chicago, Burlington and Quincy, Granger, and Western Union being the latter
